UNIVERSITY OF MISSOURI AT ROLLA

VOLUME 52

FRIDAY, DECEMBER 10, 1965, ROLLA, MISSOURI

NUMBER 12

## Cooperman to Lecture At Friday Night Forum

The second "Friday Night Forum" session will be at 8 p. m., Dec. 10 in Room G-6, Chemistry Building, UMR. Melvin I. Cooperman, director, Missouri Regional Office of the B'nai B'rith Anti-Defamation League, will speak on "Radical Movements: The Search for Certainty in an Uncertain World."

Cooperman will discuss radical right movements and their effect on modern society. B'nai B'rith, a national Jewish men's service organization, sponsors the Anti-Defamation League in efforts to insure the equality of men and their rights as citizens. ADL is

openly opposed to the Ku Klux Klan and other similar organizations.

The "Forum" speaker holds degrees from City College, New York, New York University, and Hebrew Union College, Cincinnati, Ohio, the oldest Jewish seminary in the U.S. He now lives with his family in St. Louis.

"Friday Night Forum" is sponsored at the University by the faculty Friday Night Forum Committee, whose chairman is Dr. H. P. Leighly. The meeting is open to all students, faculty and citizens of Rolla.

COMPOSER, MUSICOLOGIST, FOLK SINGER

## Dr. Swanay Plays to Overflow Crowd

An overflow audience of UMR students and faculty received a taste of the music of the past, last week, as noted composer and musicologist Dr. John Swanay presented a solo concert of varied folk songs. Dr. Swanay delighted and amused his audience with a program of folk music ranging from the serious to the satirical, performed in a manner both witty and informative.

Accompanying himself on the lute, the UMKC professor presented a series of eleven groups of ballads and folksongs, starting with selections which were sacred and austere, and finishing with those of mayhem and satire.

Dr. Swanay began with one of the oldest Christmas carols which has survived, "Down in Yon

Forest." Also of a religious nature was "Jesu Christus, Goddes Modder," a song from about 1300 asking for help from above.

Songs about women comprised the next group of selections, much to the delight of the audience, and a more serious note was taken on with the singing of tunes from the Elizabethan Court. Included was the popular "Green Sleeves," which Dr. Swanay commented, "was the guild song of the London prostitutes!"

Scottish and Irish ballads followed, and then songs about England, Samuel Pepys, and Charles II filled the air. The young performer closed the first half of the show with several pirate songs.

The international scene was typified by songs from Germany,

## Party Weekend Commences With Interfraternity Council Sing

Tonight, one of the highlights of the fall semester at the University of Missouri at Rolla, the IFC Sing, will be presented. The entertainment will begin at 7:30 in the ballroom of the Student Union. The program this evening will feature songs by twelve choruses and eight quartets.

Gary L. Kincaid, vice-president of the UMR Interfraternity Council, will serve as master of ceremonies for the event. Those judging the selections of the various groups will be Professor Henry Fellin, band and glee club director at UMR; Mrs. Charles

Hatfield, director of the choir of the Presbyterian Church, member of the Rolla Civic Chorus, and wife of Dr. Charles Hatfield, chairman of the Mathematics Department at UMR, and Mrs. Harry Estes, retired director of the Rolla High School A Cappella Chorus, and director of the Methodist Church Choir. These judges will award a maximum of one hundred points to each participating group in the chorus and quartet divisions on the following basis: tone (beauty, blend, control — twenty points possible); intonation (tone with regard to

rise and fall in pitch — twenty points possible); interpretation and musical effect (expression, style, phrasing-artistry, feeling of ensemble, vitality — twenty points possible); technique (diction, rhythm, balance of parts, precision — twenty points possible); other factors (choice of music, discipline, stage appearance — twenty points possible).

No admission will be charged for the evening's entertainment. The Interfraternity Council wishes to invite everyone to attend the 1965 IFC Sing.

### PROGRAM FOR THE 1965 IFC SING

"Tumbling Tumbleweed"	Pi Kappa Alpha Chorus
"The Little Drummer Boy"	Lambda Chi Alpha Chorus
"Nobody Knows the Trouble I've Seen"	Triangle Quartet
"There Is a Tavern in the Town"	Beta Sigma Psi Chorus
"Min Skol, Din Skol"	Sigma Pi Chorus
"Green Fields"	Pi Kappa Alpha Quartet
"In the Still of the Night"	Tau Kappa Epsilon Chorus
Barber Shop Medley	Kappa Alpha Quartet
"You Are My Sunshine", "Waiting for the Robert E. Lee", "Sweet Adeline"	
"Stopping by the Woods on a Snowy Evening"	Theta Chi Chorus
Medley "Come and Go With Me"	Kappa Sigma Quartet
"Today"	
"You'll Never Walk Alone"	Phi Kappa Theta Chorus
"Ride the Chariot"	Triangle Chorus
"Climb Every Mountain"	Kappa Alpha Chorus
Calypso Medley "Daylight Come"	Sigma Phi Epsilon Quartet
"Bay of Mexico"	
"Shenandoah"	Sigma Nu Chorus
"A Summer Place"	Tau Kappa Epsilon Quartet
"Try to Remember"	Sigma Phi Epsilon Chorus
"This Old Hammer"	Lambda Chi Alpha Quartet
"King of the Road"	Kappa Sigma Chorus
"De Animals A-comin'"	Theta Xi Quartet

## Blue Key Elects Candidates for "Man of the Month" Honors

### SEPTEMBER

For the month of September the members of Blue Key have selected James E. Bertelsmeyer as the Blue Key Man of the Month. "Bert," as he is called by his friends, hails from Florissant, Mo., where he was graduated from St. Louis University High School. Since coming to this campus in September of 1960, he has been very active in extracurricular activities and has acquired many honors. Some of these include: Inner Guard, Secretary, and President of Theta Tau Professional Engineering Fraternity; Secretary of AICHE; a member of the Executive Committee, Rush Chairman, Editor of the Alumni Newsletter, and Assistant Pledge Trainer of Lambda Chi Alpha Social Fraternity; General Lectures Committee Chairman of the Student Council; a member of AIEE and the Glee Club; and Secretary of Blue Key Honor Fraternity. Bert also chairmaned and organized the committee that presented last spring's fine Blue Key

Athletic Banquet. In recognition for his leadership abilities and accomplishments, Bert was elected to Who's Who in American Colleges and Universities this fall.

JAMES BERTELSMEYER

Even with devoting as much time to the campus as Bert has, he has also maintained a very respectable grade point during his career at UMR. He has completed a

two-year co-operative training program with the Monsanto Chemical Company of St. Louis.

Congratulations to a true leader and a deserving recipient of the

ALLEN BEHRING

Blue Key Man of the Month award.

### OCTOBER

Blue Key has selected Allen G. Behring as the October Man of

the Month. Al, a senior majoring in Mechanical Engineering, has been very active on the campus during his years at UMR and has compiled a very distinguished rec-

WILLIAM NORFLEET

ord. He is a member of Beta Sigma Psi Social Fraternity where he has served as President, Rush Chairman, and Steward, and has received the C. J. Grimm Service

Award for two consecutive years. He has also served as a Colonizer for the National Fraternity of Beta Sigma Psi at Kansas University. He is the current President of the Interfraternity Council and Pledge Master of Theta Tau. While on the IFC he has also served as Secretary and has been elected to be IFC's representative to the National Interfraternity Conference for two consecutive years. Al has also been Vice-President and Secretary of the A. S. M. E. and is a member of Blue Key and Pi Tau Sigma. As well as being a very capable leader, Al has been honored for his outstanding scholarship by receiving a Curator's Award and placement on the Dean's List for four semesters. In view of his many achievements on the campus, Al was awarded election to Who's Who in American Colleges and Universities this Fall.

Al has done and is still doing a great deal for UMR and we give our hearty thanks by saying, (Continued on Page 6)

## UMR Madrigal Singers Available for Concerts

The newly-organized Madrigal Singers of UMR will be available for concert appearances in January, according to Henry E. Fellin, Jr., conductor and assistant professor of music.

Specializing in what Fellin calls, "fun singing," the UMR Madrigal Singers include eight men who are engineering and science majors at the University and eight women. The group adopts its name from the 16th century madrigals, counterpart of modern "hootenanny" singers, and is ideal for after-dinner entertainment. Membership is determined by competitive audition.

Schools or organizations in the Rolla area wishing to schedule concert or banquet appearances

by the University Madrigal Singers, may contact Henry Fellin, T-1, Band Building, UMR.

The group now includes: Soprano voices: Sharon Piercy, Waynesville; Mary Lou Castleman, Rolla; Pat Flaim, St. Louis; Jamie Canfield, Rolla.

Alto voices: Dianne Clarida, Rolla; Jessie Carter, Rolla; Mary Lou Morrison, Rolla; Judy Bartine, Silver Springs, Mo.

Tenor voices: Larry Decker, Festus; Thomas Petry, Jefferson City; Darrell and Virgil Hughes, Leadwood.

Bass voices: Bob Foster and Dan Smith, Paducah, Ky.; Angus Wrigley, Kidder; Dave Morrison, Rolla; Paul Marlin, Mobile, Ala.

## Professors Hershey and Zakin Present Paper at AIChE Meeting

Dr. Harry C. Hershey, assistant professor of chemical engineering and Dr. Jacques L. Zakin, professor of chemical engineering, are co-authors of an original research paper presented at the annual meeting of the AIChE, Dec. 7, in Philadelphia, Pa.

Entitled, "A Study of the Turbulent Drag Reduction of Solutions of High Polymers in Organic Solvents," the paper regards a fluid flow problem. The authors experimented with three plastic additives (high polymers) in various petroleum solvents. They developed a means to reduce friction in pipes and a theory to mathematically describe the phenomenon.

Hershey read the paper at a special "Symposium on Mechanics of Visco Elastic Fluids," held in connection with the AIChE meeting. It was based on research conducted under Zakin's direction and written in partial fulfillment of requirements for Hershey's doctor of philosophy degree.

The assistant professor joined the faculty after earning three degrees at Rolla, where he was a National Science Foundation Cooperative Graduate Fellow. He has also been associate engineer for Union Carbide Nuclear Co., Paducah, Ky.

Zakin, a graduate of Cornell

University, Ithaca, N. Y., Columbia University and New York University, New York City, has been on the Rolla campus since 1962. He formerly worked for Flintkote Co., and Socony Mobil Oil Co.

## Board of Curators Accept Bids For Construction of New Library

The Board of Curators of the University of Missouri began advertising for bids for the construction of a Library Building at UMR, on November 19.

Sealed bids for the proposal will be received at the office of the business officer of the University at Rolla, Room G-2, Parker Hall, until 11 a. m. CST, Dec. 16. They will be publicly opened and read at 11:15 a. m. CST, at the East Ball Room of the Student Union Building of UMR.

The proposed library Building at the University at Rolla is to be a four-story buff brick structure to be erected on the site of the present Jackling Gymnasium on

## Myers Presents Photos

Recently there has been an added decor to the Student Union Music Room; a large group of photographs covers one complete wall of the room. These photographs show many scenes and sites of the UMR campus. Howard Wm. Meyers, a senior at UMR, is responsible for this fine display of the campus in photos. The photographs consist of many

tistic design. The photographs were taken from different angles, different lighting, and different times, which, as a whole, gives a very pleasing display. The lighting effects and the shadowing of the photos gives quite a complement to several of the buildings and areas on the UMR campus. Myers took a great deal of time and used very good techniques

Howard Myers presents his display of photography of UMR campus to students.

different views of our campus. Some of the pictures are only of one building, while others are scenes of areas of our campus. The pictures show a definite ar-

in making the photographs and the display.

Howard Wm. Myers is a senior at UMR majoring in Math. He resides at Merrick, New York. Howard's main hobby is photography and has participated in this hobby for seven years. He spends much of his free time joining into the activities of Wesley and the Photo Club. Howard has had experience in "free-lancing" in the professional field of photography. He has definitely put his ability to good use when he designed the display for the Student Union.

## Twelve ROTC Cadets Enroll in Flight Training for Second Straight Year

A total of twelve U.S. Army ROTC cadets are enrolled in the ROTC Flight Instruction Program at UMR for the current school year. This is the second consecutive year that twelve UMR students have enrolled for this extracurricular ROTC flight instruction.

Cadets participating in the program this year are: Jerre B. Borowitz, Robert R. Callen, Keneth M. Carroll, Bobby T. Cox, Daniel P. Hatcher, David A. Herold, Jack Hornbuckle, Paul E. House, Dick O. Mooy, Wesley E. Meyers, John E. Myers, John D. Riley, and Raymond J. Walts.

Instruction for the course is conducted by qualified personnel of the Maples Aviation Co., Inc., Rolla National Airport at Vichy, Mo., a flight instruction school approved by the Federal Aviation Agency.

The ground school portion of instruction is presented on the University campus by Robert B. Lipscomb. The flying instruction is conducted at and from the Rolla National Airport by flight instructors Lee Maples, President of Maples Aviation Co., Inc.; Leo Harmon and Robert Lipscomb.

Maj. Ronald E. Dale, Aviation Officer of the UMR Military Department, who is administering the program, is a Senior Army Aviator, holding proficiency both as a fixed wing and rotary wing aviator.

Maj. Dale stated that past experience has shown that most of the students participating in the program will qualify for a Federal Aviation Agency private pilot's certificate. However successful completion of the course is not dependent upon such an award. Successful completion of the instruction is dependent upon the

recommendation by the Federal Aviation Agency inspector for further aviation training.

The program is conducted at no expense to the student. The costs of books, flight equipment, insurance, and flying examinations are all paid for by the U.S. Army.

The ROTC Flight Instruction Program was initiated at UMR in 1960 with five authorized training spaces, through coordination between the University of Missouri and the Department of the Army. The program was doubled in 1963, with an increase to ten spaces, and two additional spaces were authorized in 1965. Increases in the program have resulted from the emphasis on mobility which has developed within the Army and the need for competent, qualified commissioned officers for Army Aviation activities. Initial purpose of the program was to provide flight instruction of sufficient scope to qualify selected students in the basic principles of contact flying.

To be eligible for the flight instruction the student must be enrolled in the ROTC Advanced

Course, must have sufficiently high academic standing to be recommended by his dean and the PMS, must pass the Army Fixed Wing Aptitude battery test, and must meet the class I standards of medical fitness for flying.

## Folk Songs Are "In" At the Cellar Door

The Cellar Door, a coffee house on the corner of 9th and State Streets, will be opened this Saturday from 9:00 p.m. to 1:00 a.m.

Folk singers, banjo, guitar and piano players, Miners with and without dates rendezvous at the Cellar Door on party weekends. The entrance is marked by the sign of the fish and burning torches. Coffee and other light refreshments are sold and served by faculty and town couples.

Several churches sponsor the coffee house to provide a place where students can relax, talk over a cup of coffee, and participate in folk singing.

### "CARRY ON SERGEANT"

"Carry on Sergeant" will be the Student Union Sunday Movie for December 12. The film will be presented at 2:30, 5:00, and 7:30. This highly comical war picture stars William Hartnell, Bob Monkhouse, Shirley Eaton, and Eric Barker. Take an inductee drafted into the army on the day of his wedding; add a sergeant who has bet that he will make his last platoon, before he retires, the best squad in the camp; spice it with a group of nondescript civilians who have been placed in the same platoon, and you have the concoction "Carry on Sergeant," a howl of a show from start to finish. When the "bride" shows up behind the counter in the canteen, then the fireworks really start. There is never a dull moment in this hilarious new romp with the crew of "Carry on Nurse." Don't miss it.

### "TAKE HER SHE'S MINE"

The Student Union will present their Christmas Holiday Movie on Wednesday, December 15. The movie, "Take Her She's Mine," will be presented at 5:30 and 8:00 p.m. This technicolor and Cinemascope production stars James Stewart, Sandra Dee, Audrey Meadows, Robert Morley, and Phillippe Forquet. When a father (James Stewart) starts out to protect his college daughter (Sandra Dee), he is the one that is called before the school board to explain his "scandalous" actions. His troubles pursue him all the way to Paris, but he gets everything straightened out just in time to start worrying about his younger daughter. This movie is funny and heart-warming, and is the type of film that is enjoyed by everyone.

## 15 Students May Fill Project Jobs

Why not give your semester break for service to those in need? There is an opportunity for fifteen UMR students (male and female) to work in the St. Louis area on an Urban Work Project from January 23, 1966, to January 27, 1966.

Organized by the Urban League of St. Louis, as a part of the "war on poverty," this project will work through the neighborhood centers of the Urban League. The three part program will include service, orientation, and study. The service will consist of community census work, recreation assistance in the neighborhood centers, and tutoring. There will be a general orientation to the opportunities and the problems of the city, and to the attempted solutions (e.g. urban renewal). There will also be study and discussion in relating the faith of the individual to the problems.

Housing will be provided in churches in the area, where the volunteers will prepare their own meals. The cost will be a nominal \$2.00 plus transportation to and from St. Louis.

A sign-up list is posted at the Wesley Foundation House, 804 Main Street. Additional information may be obtained from the Rev. Fred Lamar or the Rev. Otto Zingg at that address or at 364-1061.

## On the Other Side of The Transit

BY DON WARD

This smiling, clear-eyed fellow goes by the name of Jerome Robbins. This I would suspect has no effect on you. Well, it did not have any effect on him either, so he changed it to Jerome Robbins and became one of Broadway's outstanding directors and choreographers.

Actually, this New Jersey-born son of Russian-Jewish parentage had to do a little more than change his name to gain the honored position he holds today. He began almost from birth learning piano, dance, drama, painting and (at one point) even the violin. But by 17, Jerry had his first Broadway part. But his biggest break came in 1943 when his first ballet "Fancy Free" opened to wide acclaim. This Bernstein-musiced and Robbins-choreographed ballet was called by the New York Times reviewer "...a smash hit...the only thing young Robbins had to worry about is how in the world he is going to make a second one any better." Well, Jerry Robbins followed this success almost immediately with another and another, so that by his 40th birthday in September of 1958 one could visit any of five different theatres in New York and see his work. At that time, the New York City ballet of which he was Associate Director was presenting three of his ballets; the Ballet Theatre was doing another of his works at the Metropolitan Opera; his own company of ballet had opened its first season at the Alvin Theatre; and he had two very successful Broadway shows which he both staged and choreographed in "Bells Are Ringing" and "West Side Story."

After 1958, Robbins was constantly in very high demand. He staged "Gypsy" for Broadway and brought his first Academy Oscar home with his co-direction of the film version of "West Side Story." His first attempt at a non-musical production proved another success as "Oh, Dad, Poor Dad, Mamma's Hung You in the Closet and I Feel So Sad" became an instant hit and brought Barbara Harris to stardom. Robbins' latest endeavor was "Fiddler on the Roof" - the outstanding musical for last year. A show for which he received a flat fee of \$10,000, to be followed by 3% of weekly gross, and 15% of all profits. The show is still running and almost always to full houses.

Jerome Robbins has not always had successes. A production of Brecht's "Mother Courage" failed miserably. Several of his ballets are rather heavy and difficult. But Robbins merely looks back on these and laughs today. Final success gives him the right to do this.

## Paddle Line Defined

Dear Sir:

The paddle line, long a tradition with M-Club, has been abolished by the administration of this school. From their point of view, they are correct. A paddle line, which is only a paddle line, is definitely wrong. However, I feel that the M-Club paddle line means something more than just getting your behind beaten.

First of all the paddle line has one obvious purpose: it keeps the undesirables out of the club. If a person doesn't think that it's worth going through a bit of an ordeal to get in the club, then he doesn't think much of the value of belonging.

After going through the paddle line, the new member feels a sense of accomplishment. He looks back and sees that he has done something, which others have not even dared to try. And seeing what he has gone through, he will strive to make it a better club.

Also, when two lettermen pass on campus and see each other's gold M, there is mutual respect. "Man can seek no higher goal than to be respected by his peers."

I see the administration's viewpoints and know that it is what they had to do. But still I feel that the M-Club has lost something which is basic to its nature. Everyone hates to see a meaningful tradition die.

Respectfully,  
Bob Yates

## ST. PAT SWEATSHIRT ATTACKED

Dear Sir:

One of the newer traditions surrounding St. Pat's is the emblazoned sweatshirt which are sold by the St. Pat's Board. They serve as mementos of the festivities and are worn and seen by many people. It is regrettable, therefore, that this year's choice of a sweatshirt is so utterly devoid of taste. Instead of symbolizing the engineers' celebration of their patron's day with a mural everyone would like to wear the sweatshirt has a crude and ugly caricature of "Joe Miner" surrounded by miscellaneous engineering symbols with the traditional shamrock as a background. The composite effect is cluttered and amateurish. I encourage everyone who thinks as I do to make their feelings known to the St. Pat's Board in the hope of having another pattern chosen, one which would enhance and not cheapen our best and favorite holiday of the year.

Friend of Joe Miner

# Miner Editorials and Letters

## MINER

THE MISSOURI MINER is the official publication of the students of the University of Missouri at Rolla. It is published at Rolla, Mo., every Friday during the school year. Entered as second class matter February 8, 1945, at the Post Office at Rolla, Mo., under the Act of March 3, 1879.

The subscription is \$1.25 per semester. This Missouri Miner features activities of the Students and Faculty of U. M. R.

## New Sweatshirt Design Irritates A Prudent Miner

Dear Sir:

I see that the St. Pat's Board is trying to eliminate another of the fine old traditions of St. Pat's, that of people buying St. Pat's sweatshirts. This is not apparent until one looks upon the design for the next St. Pat's sweatshirt. To say it is different is being kind.

I understand that there was a contest earlier in the year to pick the best design. Evidently there was only one design submitted, since it seems that both the best and worst design are one in the same.

As for myself, I have always bought a sweatshirt for my date for St. Pats. I honestly doubt if I would waste my money on one of these creations . . . I doubt if she would want one.

Truthfully, this proposed design certainly does not exemplify the true St. Pat's spirit, and it seems to me that a more suitable design could and should be chosen. I doubt if I am the only Miner who wonders if another design could be chosen.

Steve Kriger

FROM INTERCOLLEGIATE PRESS

## Instructor Evaluation

If a professor of California State College at Los Angeles wants to know what his students really think of him as a teacher, he can find out by purchasing a student publication called "Prof-ile."

This document, which sells in the campus bookstore for 30 cents per copy, will tell a professor if students think his lectures are thought provoking, if the lectures are based on course material, or if tests are fair.

Although other universities and colleges have produced professor evaluation surveys in the past, the CSLA publication represents the first time students and faculty have worked together to compile such a document. In fact, all questionnaires utilized in the survey were actually distributed in the classroom and with the professor's permission.

Supervised by a group of student leaders, "Prof-ile" was devised according to student body president Felix Gutierrez, "to help serious students get the most out of their education by carefully selecting professors and not having to rely primarily on the campus grapevine."

How do the professors take to the critique? Most say they are pleased. Said one: "No professor should fear student opinion. Both

students and professors can receive much benefit from this survey." Another: "This is an excellent idea." Only one responded: "I think this kind of questionnaire is uncalled for and I don't care to cooperate with you in it."

With the help of psychology and English department faculty, students contacted professors and sought permission to distribute questionnaires in the classroom. This procedure, it was decided, would provide three improvements over former methods of evaluation:

1. The distribution method guarantees that each student truly had the class with the professor about whom he comments;

2. The environmental conditions under which the questionnaires are completed are nearly identical;

3. A larger minimum response per professor is guaranteed.

Each student was asked to rate an individual instructor on eight points, ranging from "To what degree is the professor concerned about you as a student . . ." to "In comparison to that of other professors, the amount of work is . . ."

Each questionnaire also asks for the student's academic year, grade point average, sex and whether the class is part of his major course of study.

The Associated Men Students, already at work on next year's "Prof-ile," said the new edition will also contain a descriptive statement of the professor's style, lecture delivery, and test frequency.

## College Riots - Communist Inspired?

Readers with long memories can cite a whole list of crazy goings-on, from goldfish swallowings to dormitory raids to recent lie-downs or teach-ins. And now the draft-card performances, with pyromania. It's easy to class these things as campus foolishness.

Readers with memories and a concern for history, however, can make some rather sobering interpretations. Such readers are those who remember the discovery of active Communist cells in our colleges and universities in the 1930's and 1940's. Socialist clubs were fashionable, and some scholars of repute turned out to be either card-carrying or fellow-traveling devotees of Marxism. The pacifists were there too, with their petitions and pledges. How inconsistent Marxism is with pacifism some did not bother to think, then as now.

### They're At It Again

Some readers will reflect that the Fabian socialist movement in England in the last century found its most profitable strength in the academies and graduate schools. A few intellectuals they had, some of them writers and professors. But only a few of these went a long way toward swinging the intellectual community into receptivity. Then, after the Russian revolution, their attention was drawn to Marxist action, and even America was infiltrated through articulate writers, professors, lecturers, and periodicals. The campuses were being prepared, right here in America, for the stronger meat of socialist and communist action.

What of today? Well, Herbert Aptheker, No. 1 Red thought leader in the U.S., in September told as rabid a crew of deluded socialist professors and fellow-travelers as have ever assembled at Columbia University that "Watts (the Los Angeles riot) was glorious!" He was wildly applauded. From dozens of ivied private colleges and tax-supported institutions, these socialist "scholars" came to exchange views about socialist advances, to attack U. S. Institutions, to deride American decadence, and to urge more public ownership and economic planning.

### Taking the Line Home

A Yale professor, no novice in his work with and for subversive groups, demanded that the socialist scholar should now be ready to devote himself "to the jugular" and man the barricades to bring on the revolutionary victory in America. Perhaps it was no surprise that Aptheker should tell these "intellectuals" in a final session that five steps were required to move America toward "radicalization." These, he said, were the battle against war in its "peace" activities; the utmost unification of the Left; the Negro movement, in which the Reds had already played a decisive role; more Marxist radicals in the South under the Red leadership; and violence from revolutionists in their resistance to opposition.

These left wingers have now returned to their respective campuses. There, we presume, they will set about "implementing" the line they heard at Columbia. They will doubtless become greatly exercised about academic freedom on their campuses. This is pure sham, for they are concerned only in getting their side across

and will in fact silence their opposition at every opportunity. Under freedom in their classrooms and out, we presume, they will go about the job of radicalizing as many students as possible.

### The Dedicated Ones

Finally, readers seeking full comprehension of this Fall's campus capers will recall the directive sent down from Communist Party headquarters in Moscow a few years ago, in which young people were named as the big target. The Communists have found, as Dr. Stefan T. Possony, a leading scholar of their techniques, recently told *U. S. News & World Report*, that this is one of the best ways to make trouble for the U. S.

while at the same time recruiting the very small percentage that they wish to train as revolutionaries for the Communist America they confidently expect tomorrow. This can prove, he said, to be America's "time bomb."

The bulk of this nation's fine students and faculties are loyal, they are not draft-card burners or Markist fire brands out to destroy American institutions. But it is the few dedicated ones: the activists who are appearing on the scene (some as second generation Rads), who already contribute, as Dr. Possony observes, to the buildup of Communist revolutionary potential in America.

## A secret handshake won't help you make V.P. at General Electric.

Something that *will* help move your career along at a healthy clip is a strong, steady hand when responsibility and important duties are thrust upon you. Plus a firm grip on your special field of interest, whether it's marketing, finance or nuclear physics.

And it won't hurt a bit if you also

want to strengthen your grip on the subject that interests you. General Electric runs one of the world's largest "graduate schools," with courses in everything from advertising to microelectronics. You can stay on top of developments in your field by periodically going to school at G.E. . . . and learning from G-E

"professors," selected from the country's top ranks of engineering, marketing and manufacturing experts.

If you want to work and study and get ahead in this kind of company, this company wants you. Come to General Electric, where the young men are important men.

Progress Is Our Most Important Product

GENERAL  ELECTRIC

## Co-op Program Discussed In Recent Coffee Chat

Dr. G. E. Vaughan and Dr. R. H. Nau discussed the co-op program at UMR in the Chancellor's Coffee Chat in the lounge of the Student Union Monday afternoon. They were introduced by Chancellor Baker.

One of the most important facts they stressed was that all co-op students must pay a five dollar registration fee with the school the semester that they work. This maintains their student rating on draft lists.

At some schools credit is given for the work period but nothing definite has been decided here. Also brought up was the engineering internship where the student works for one year during

a five year course. Again nothing definite has been decided.

McDonnell Aircraft started the co-op program here but now it extends to all fields of interest. As a matter of fact there are more jobs open than there are students applying for the positions.

Starting salary for a co-op student is about \$400 while it raises to about \$50 to \$100 short of what a person with a B.S. is getting during the last. Most of the students are able to have approximately \$200 per month while they are at work. This is slightly lower in the St. Louis area where most of the students at UMR have room and board with their parents.

### JOHN SWANAY

(Continued From Page 1)

the altering of merely one or two words. As an example, he sang his version of "Scarlet Ribbons."

"How Much Is That Doggie in the Window" is a song most of us recognize, and Dr. Swanay presented four variations of this song as one would most likely find in England, Germany, France, and Spain. An encore brought him back on stage to sing "Tip Toe Through the Tulips" in the manner which he taught to several nationally famous groups, such as the New Christy Minstrels.

Dr. Swanay was sponsored by the UMR Student Union Board, as a part of the Extension Concert Series of the University of Missouri.

### MAN OF THE MONTH

(Continued From Page 1)

"Hats off to Al Behring — October Man of the Month!"

#### NOVEMBER

Blue Key's choice for November Man of the Month is William W. Norfleet, a resident of Jefferson City, Missouri and a senior majoring in Mechanical Engineering. During his years at UMR, Bill devoted much of his time to serving the campus and his leadership qualities and new ideas have resulted in many improvements in the organizations to which Bill belongs. These things coupled with his outstanding character and personality have made him one of the best known and liked men on campus.

Bill is a member of Phi Kappa Theta Social Fraternity where he has been President, Treasurer, and Rush Chairman. Just last semester Bill completed his term as President of the Student Council. He is a member of Blue Key National Honor Fraternity where he has served as Vice-President and is currently serving as President. He is a member of Alpha Phi Omega Service Fraternity where he has served as President, Vice-President, and Secretary. Bill is also a member of Theta Tau Professional Engineering Fraternity, the Newman Club, S. A. E. and A. F. S. and has done quite a bit of work on University publications when he was a member of the Rollamo Board which he served as Sports Editor, Classes Editor, and Business Manager, and of the Miner Board.

In addition to Bill's fine record of activities, he has also received honors for his scholastic performance. Among these are placement on the Dean's Honor List and a Foundry Educational Foundation Scholarship.

As many people on the campus well know, Bill is an outstanding leader and has been so recognized by election to Who's Who in American Colleges and Universities for two consecutive years.

Blue Key is proud to have as one of its members a man such as Bill and we are confident that the campus will join us in a salute to Bill Norfleet — November Man of the Month!

### NOTICE!

Petitions for Student Union Board will be available Dec. 10. Applications will be taken until January 5 at 4:00 p. m. Applicants will be notified if interviews are necessary.

## Dowell attracted the best people in 1932

Why has Dowell maintained a reputation as a good place to work and grow for the past 32 years? Because this is a company that offers its own people the same leadership and opportunity it offers its customers.

Dowell is known throughout the oil industry as a pioneer in providing proved services for oil and gas wells—cementing, fracturing and acidizing. Because of this solid reputation, you are assured stature in the job you choose. In addition, Dowell continually seeks new and better techniques for the benefit of its customers. This constant research and development program creates ex-

## It still does

citement for you as an employee and broadens your opportunities with an aggressive company.

The range of talents needed to maintain Dowell's leadership is broad. Careers are open in the fields of petroleum and mechanical engineering, chemistry, accounting, management, and sales.

Find out more about why Dowell can be attractive to you. Write Employment Manager, Dowell, 1579 East 21st Street, Tulsa, Oklahoma 74114. Or, contact your school Placement Officer. Dowell is an equal opportunity employer.

Missouri Miners vs. Warrensburg  
Saturday, December 11, 7:30 p. m.  
Rolla High School Gym

## MINERS CRUSH HIGHLANDERS, 86-56

### Two Thousand Fans Cheer UMR Five to Season's First Victory

MacMurray Coach Bill Wall and his fifteen man group were the only ones to hold solemn expressions last Saturday night at the Rolla High Gym, and they had good reason to be down-hearted. An estimated overflow crowd of 2000 spectators cheered wildly as the Missouri Miners crushed the hapless Highlanders 86-56. This second game of the twenty-game card was won by the biggest margin of the past three years and is the first triumph of the season.

UMR's fighting Miners led 30-18 at half time, and they increased the lead to 30 by scoring 56 points in the second half. MacMurray play was characterized by poor rebounding and an

Rebounding was tremendous, as the UMR group pulled in 87 from the boards. This total is over twice as many as gathered at Washington University, and is 33 more than the Highlanders could muster. Freshman Wayne Lewis, that 6-foot-5 center from Greenfield, Missouri, led all the players with 16 rebounds, while John Head and Tom Borge-meyer were next in line with 13 and 10, respectively.

Leading the MacMurray squad in rebounds was Chuck Hundley with 8. Dave Berst and Gary Watson each totaled 5.

#### Hurt by Poor Shooting

The shooting percentages of both teams are nothing to brag about, from the field and the free throw line. UMR men shot 89 times from the field and scored 33 for 37 percent. MacMurray dropped in 19 out of 83 for a low 23%.

Wayne Lewis grabbed 16 rebounds to lead both squads.

ineffective defense.

The Miner defense sparkled in this contest, although the first half was filled with mechanical violations. "At times they looked ragged, and at other times they looked real good," said UMR Coach Billy Key. "We played a good defensive game and the rebounding was tremendous."

### Miners to Host Top-Ranked CMS in MIAA Action

The first conference test of the season for the Missouri Miners will bring them opposite the league champions of 1964-65, the Central Missouri State Mules. The Rolla High School Gym will once again be the scene of the battle tomorrow night, with game time slated for 7:30 p. m.

Warrensburg has scheduled and lost to two of the toughest small college basketball teams in the nation so far this season. Against the University of Cincinnati, CMS lost by 14 points, and Louisville downed the Mules by a margin of only 9.

Chuck Smith will direct his first season at Central Missouri after having led Washington University to a successful 21-6 record last year. Smith's group will include most of the regulars from the title-holding squad of last season.

Monday, December 13, the Miners will be host to Southwest Missouri State in the season's second Missouri Intercollegiate Athletic Association contest. Ranking just behind Warrensburg as title contenders, the SMS Bears sport two wins in as many starts.

Dick Baggett scored 18 points against MacMurray for high-point honors.

#### LEAVE HORNS HOME

### Cooperation Required With New League Rule

There isn't a coach in the world who doesn't wish for whole-hearted spectator support from his team's fans, and a glance in at last Saturday's Miner-MacMurray game indicates that Coach Billy Key didn't suffer from a lack of it. There are several things which must be kept under consideration, however, and the use of mechanical noisemakers is one of them.

This past May, officials of the MIAA ruled out the use of horns and other mechanical noise-makers by spectators at conference basketball games. Continued infraction of this rule could bring results which would be detrimental to the school.

Loud horns distract both those on the court and the spectators close by the source of noise. "I think that most students would rather have these people leave those things at home," added Coach Key. The Missouri Miners need YOUR continued support, but no mechanical noisemakers, please.

#### MISSOURI MINERS (86)

Totals	19	18	23	56

The Miner freshmen looked great in their varsity posts Saturday night, and Arlin Baggett is a prime example. The 6-foot-2 forward from Marion, Illinois, scored 6 field goals and the same number of free shots to lead both teams. In addition to tallying 18 points, Dick grabbed 8 from the boards.

Rich Cairns with 14 was second high for the game, and Mackie Andrews rounded-out the UMR double-scoring figures with 11.

Tom Cochran led MacMurray with 13 points, and Steve Proesel scored 10 for the Highlanders.

Kay's squad was successful in 20 out of 35 trips to the free throw line (57%). The Highlanders hit 18 of 26 charity tosses awarded them.

The Miners will oppose MacMurray again on January 15, at Jacksonville, Illinois.

Six-foot-four sophomore John Head should be ready to go full blast Saturday, barring any further injuries.

### Kirksville and SMS Dominate All-Star Squad

By Phil Eatherton

There were a few surprises in the MIAA all-conference football team as Kirksville and Springfield dominated the first team offensive and defensive alignments, while the Miners placed no one on the first two teams.

Miners receiving honorable mention included: Jim Key at tackle, Mike Dressin at guard, Mike Fridley at center, and Rich Erxleben and Bob Yates in the backfield.

Kirksville, the conference champions, hold ten positions on the offensive and defensive teams, with Springfield snaring seven of the remaining twelve positions. Kirksville had the only two unanimous choices, as the coaches picked Sharron Washington for the offensive and Mike Richardson for the defensive backfields.

It was Richardson's second straight year on the all-conference team; Cornelius Perry was picked for the third time to start at halfback. The only other repeater

was Wally Dawson, a Springfield halfback.

Richard Rhodes, a tackle, from Kirksville and John Kennedy (Continued on Page 8)

## Defense Disintegrates In Loss to Washington U.

The crowd cheered on, and the fighting Missouri Miners held the pace. Bolstered by the crowd of UMR alumni and proud Miner parents, the Silver and Gold went nip and tuck with the Battlin' Bears of Washington University up until the very last second of the 74-62 defeat. Faltering in the early stages of the second half, the Miner defense seemed to become undermined by the extreme pressure of this the first game of the season.

It could easily have been a first half victory for the Miners, but the stubborn combination of Denny Lutz and George Spencer kept the fires burning for the men from the Hilltop.

### Miners Lead for 10 Minutes

Billy Key's squad jumped into the lead for the first time at the 16:00 mark in the first half. Enjoying a reasonable edge for over ten minutes of play, the Miners found their opponents suddenly neck and neck with them with six minutes left. Hoberly J. C. transfer Tom Borgemeyer committed his third personal foul at this point, and Lutz scored two on the one-and-one to tie the tally at 18-18.

Both squads engaged in a fierce nip and tuck battle with neither team gaining a lead of more than two points. As half-time approached, the intensity of the duel continued without a break until an intermission score of 28-all was reached.

Violations took their toll in the first part of the second half. The Miners lost several chances to score as the Washington ballclub ran the score to 39-34.

John Herzing scored a three-point play on a foul by Loris Piepho, his fifth of the evening. This brought the score to 45-36 in favor of the Bears, but a quick two-pointer gave them an eleven point edge at 13:30.

### Bears Hold 12 Point Edge

Once again the scoring progressed evenly with the difference being a Washington U. edge of 12 points. Several times throughout the second half, scoring spurts brought the Miner Five within four field goals. Each time however, sporadic but accurate Bear

shots from the field re-established the host's lead.

As time began to run out for the UMR squad, it became increasingly more difficult for the previously red hot scorers to hit their mark. Miner defensive tactics left much to be desired, and violations plagued the entire squad. As the horn sounded the finish, it signaled the first defeat of this twenty game schedule and a 74-62 Battlin' Bear victory.

The also inexperienced Washington University ballclub averaged two inches taller than Coach Key's men. This could account for the 58 rebounds credited to the bear squad, as compared to 43 for UMR. Strangely enough, however, 6-foot-8 Steve Ross grabbed only 2 for the evening, while his Bear teammate Jim Markert (6' 4") led both teams

### MIAA ALL-STAR SQUADS

(Continued From Page 7)

nedy, a guard, from Springfield made both the offensive and defensive first teams.

Both the first team backfields are entirely from Kirksville and Springfield. The other five all-stars, three from Kirksville and two from Cape Girardeau, include the two biggest men on the team; seniors Paul Webber of Cape Girardeau and Jim Redd of Maryville, both weighing 235 pounds.

The offensive team averages 207 pounds per man with the line averaging 216 pounds and the backfield 191. The defensive team is a bit lighter averaging out 202 pounds per man; the line figuring out to 221 pounds and the backfield, 186.

with 12. Wayne Lewis and Tom Borgemeyer swept 8 apiece from the boards.

Randy Vessell, with 16 points, was the high scorer for UMR, but Spencer took top honors with 20 for Washington. Miner Rich Cairns totaled 12, and Wayne Lewis scored 10.

The Miners averaged 31% on field goals, cashing-in on 23 of 74 attempted. It was a different story from the free throw line as the UMR club hit 16 of 18 for 89%.

## QUESTION: How Can You Remain Physically Fit??

By Jim Strzelec

Every newspaper and magazine you pick up today seems to contain an article or advertisement pertaining to physical fitness. When you turn on television you are confronted by physically fit specimens of American youth doing chin-ups and push-ups.

Or perhaps an ex-olympic star lecturing on the body building merits of his favorite breakfast food. Now don't get me wrong, these different plans for becoming physically fit all have their merits. The question is how can we as college students with all our studies and responsibilities remain

physically fit. Allow me to make a few suggestions.

Not everyone can afford the expense of weight lifting sets or other related equipment. To gain physical fitness and maintain it such equipment is not necessary. However if you have access to such equipment then don't hesitate to use it.

This University offers an abundant intramural program which encompasses some fifteen sports. Students may compete and keep fit in such sports as football, basketball, wrestling, table tennis, to name a few. You don't necessarily have to be a member of any organization to participate in some sports.

If you are not sports-minded you can keep fit by taking regular walks. The next time you want to go somewhere, if it isn't required to drive then walk. If you don't like walking, then make out an exercise program. Include in it such things as sit-ups, deep-knee-bends and perhaps chin-ups. If you don't go for this brand of exercise then you can even keep fit by cheering, clapping and yelling while attending your favorite sports events.

A somewhat recent development in keeping fit is isometrics. There are many books available both in the local libraries and at the local book store which illustrate the merits of isometrics. This is an easy and versatile way to gain good health. Its principles may be applied in practically any situation and you don't need any equipment.

In conjunction with any of these programs it is wise to watch your diet. Stay away from greasy and hard to digest foods. Make sure you get plenty of protein and fresh fruit. Your diet is nearly as important to physical fitness as the exercising plan you follow.

These things of course are only suggestions and will do as much good for you as you let them. You must discipline yourself, and once you begin a program follow it through to the end. Of course there isn't any end when it comes to physical fitness.

## Sports Calendar

### VARSITY BASKETBALL

December 4	MacMurray College, at UMR
December 11	Warrensburg, at UMR (MIAA)

## On Campus with Max Shulman

(By the author of "Rally Round the Flag, Boys!", "Dobie Gillis," etc.)

### THE BLUEBIRD OF HAPPINESS HAS FLOWN THE COOP

Can education bring happiness?

This is a question that in recent years has caused much lively debate and several hundred stabbings among American college professors. Some contend that if a student's intellect is sufficiently aroused, happiness will automatically follow. Others say that to concentrate on the intellect and ignore the rest of the personality can only lead to misery.

I myself favor the second view, and I offer in evidence the well-known case of Knut Fusco.

Knut, a forestry major, never got anything less than a straight "A," was awarded his B.T. (Bachelor of Trees) in only two years, his M.S.B. (Master of Sap and Bark) in only three, and his D.B.C. (Doctor of Blight and Cutworms) in only four.

Academic glory was his. His intellect was the envy of every intellect fan on campus. But was he happy? The answer, alas, was no. Knut—he knew not why—was miserable; so miserable, in fact, that one day while walking across campus, he was suddenly so overcome with melancholy that he flung himself, weeping, upon the statue of the Founder.

By and by, a liberal arts coed named Nikki Sigafos came by with her Barby doll. She noted Knut's condition. "How come you're so unhappy, hey?" said Nikki.

"Suppose you tell me, you dumb old liberal arts major," replied Knut peevishly.

"All right, I will," said Nikki. "You are unhappy for two reasons. First, because you have been so busy stuffing your intellect that you have gone and starved your psyche. I've got nothing against learning, mind you, but a person oughtn't to neglect the pleasant gentle amenities of life—the fun things. Have you, for instance, ever been to a dance?"

Knut shook his head.

"Have you ever watched a sunset? ... and then to a justice of the peace." Written a poem? Shaved with a Personna Stainless Steel Blade?"

Knut shook his head.

"Well, we'll fix that right now," said Nikki, and gave him a razor, a Personna Stainless Steel Blade, and a can of Burma Shave.

Knut lathered with the Burma Shave and shaved with the Personna and for the first time in many long years he smiled. He smiled and then he laughed—peal after peal of reverberating joy. "Wow-dow!" he cried. "What a shave! Does Personna come in injector style, too?"

"It does," said Nikki.

"Gloriosky!" cried Knut. "And does Burma Shave come in menthol, too?"

"It does," said Nikki.

"Huzzah!" cried Knut. "Now that I have found Personna and Burma Shave I will never have another unhappy day."

"Hold!" said Nikki. "Personna and Burma Shave alone will not solve your problem—only half of it. Remember I said there were two things making you unhappy?"

"Oh, yeah," said Knut. "What's the other one?"

"How long have you had that bear trap on your foot?" said Nikki.

"I stepped on it during a field trip in my freshman year," said Knut. "I keep meaning to have it taken off."

"Allow me," said Nikki and removed it.

"Land's sakes, what a relief!" said Knut, now totally happy, and took Nikki's hand and led her to a Personna vendor and then to a justice of the peace.

Today Knut is a perfectly fulfilled man, both intellectually and personalitywise. He lives in a charming split-level house with Nikki and their 17 children and he rises steadily in the forestry game. Only last month, in fact, he became Consultant on Sawdust to the American Butchers Guild, he was named an Honorary Sequoia by the park commissioner of Las Vegas, and he published a best-selling book called *I Was a Slippery Elm for the FBI*.

\*\*\*

© 1965, Max Shulman

The makers of Personna® Stainless Steel Blades and Burma Shave® are pleased that Knut is finally out of the woods—and so will you be if your goal is luxury shaving. Just try Personna and Burma Shave.

## SIDELINES

BY JIM WEINEL

Congratulations, Miners!!

Highlander Coach Bill Wall cited many points in which his squad failed to excel last Saturday night, but he emphasized that the Miner spirit and whole-hearted support of the fans were detrimental to his ballclub. And no wonder, with approximately 2000 Miners in the stands cheering every UMR move, what team wouldn't be discouraged. The coaching staff and team hope that this is an indication of the amount of support which the students will offer throughout the year.

Washington University's victory was the forty-fifth out of forty-nine meetings between the two schools since 1911, but for Bear Coach Bob Greenwood, it was the first. Greenwood, who coached the last three years at Rider College, New Jersey, has only four lettermen returning from last year's 21-6 season and finds himself in a position similar to that of Coach Key. It will be a rebuilding year for the Bears, with co-captains Lutz and Spencer forming the nucleus.

Even though Washington U's official schedule didn't begin before the battle with the Miners, the Bears were actually three games up on the UMR group. Greenwood conveniently arranged three pre-season scrimmages for his men against squads from St. Louis University, Concordia Seminary, and McKendree College. While there is no NCAA ruling on this, the MIAA (of which UMR is a member) stipulates that no member team shall scrimmage another school before the regular season begins. Therefore, when the magic date, December 1, arrived and the season opened at Washington U., the Miners were at a serious disadvantage. The amount of experience gained in three "games" (a scrimmage is a game with no spectators) would easily give a team ample time to jell before the first official opponent. In addition, the coach can see just how his new men perform against competition similar to that they will oppose during the season. Just something to think about!
